### Procedure for computing winners:

Using Excel spread sheet of Unit 361 membership which is downloaded from ACBL.org using the following steps:

Click on "My ACBL" and log in

Click on "Member Rosters"

Click on "CSV File (excel compatible) and check box by "I have read..." and click on "Next"

Click on "Unit/District" and select "361 Denver" and click on "submit"

Which will bring up a Thank You message saying you will probably have to wait one hour for the file to arrive in your email (for me it came in about 15 minutes). When the file arrives download the attachment and import it into Excel.

In order to keep track of points won for Victory Point Trophy and Top Point I/N Winner in the 4 Open 361 Unit Sectionals sort the Roster file by the Points column and make two new Excel files one for Colo Vic Trophy and one for I/N Trophy, add five columns to each file, the first 4 will be headed “Winter”, “Spring”, “Summer”, “Fall” and the fifth col will be formatted as a quick sum of the first four cols. In the Colo Vic file add a column for each sectional tournament held in Colorado (other than Unit 361) and an additional “quick Sum” column after those and using **ONLY the first 3 places in each event** insert the points won by each player. It saves a great deal of time and aggravation to do this immediately after each tournament. Results are found on the ACBL Website under Tournaments-Results and you can pinpoint the exact dates of the tournament.

Consult with I/N Tournament Chair for cost of trophies. Research and procure Trophies for Tournaments approximately 1 month before presentation date to allow for production time, pick up trophies and deliver to Tournament chairperson for presentation. For the 3 traveling awards check that the previous recipient has returned them to the Unit.
